# The Sunbeam Automatic Air Freshener's fan circulates a fresh pine scent.

Pine-scented air is pushed back out into the room through front grillwork. *One pine scent comes with the unit.*

Three-position control on back of unit lets you set it on "continuous on," "off," or on the automatic timer.

Fan pulls odor-filled air into the unit through thirteen  $1\frac{1}{2}$ " x  $5\frac{1}{8}$ " vents in back.

Air freshener is housed in a white and simulated woodgrain plastic case. Measures  $7\frac{3}{4}$ " wide x  $3\frac{1}{4}$ " deep x  $4\frac{1}{4}$ " high. Weighs  $13\frac{1}{2}$  ounces without batteries.

Unit is battery operated — uses two "D" size flashlight batteries (not supplied in kit).

Room air pulled into the unit circulates over and around the fragrance gel, picking up the scent. Refill scent cartridge is easy to slip into the unit.

Forget air freshener wicks that are often unsightly.

Forget aerosol spray fresheners that may not always permeate rooms for as long as you'd like.

Instead, think about the Sunbeam Automatic Air Freshener.

This good-looking appliance, which blends in with almost any room decor, automatically pulls stale room air into the unit, circulates the air over and around a

fragrance gel, and then pushes the air with a fan back out into the room.

The unit comes complete with one pine-scented cartridge. (See back panel for details about how to order refill cartridges.)
